

Summer Technical Recruiting Internship Program

CROSS INTO THE BLUE

THE SUMMER TRIP PROGRAM

The Air Force is currently looking for engineering students interested in an internship opportunity that allows them to work for the Air Force Research Lab (AFRL) during the summer between their sophomore and junior year of college.

Selected interns will work at various Air Force bases throughout the United States, for a 10 week period. In addition to paying interns a salary of approximately \$4,500 for the 10 weeks, the Air Force will also pay for round-trip airfare, lodging and living expenses and rental vehicle costs.

Students who complete the program may be offered a follow-on AFROTC scholarship. This scholarship can pay up to full tuition and fees, an annual textbook allowance^{*} and a \$400-\$500 nontaxable monthly stipend.

Not only does this program offer the benefits of résumé-worthy experience, competitive pay and scholarship opportunity, it also lays the foundation for career opportunities as either an Engineering Officer in the United States Air Force, or Department of Defense Civilian Employment with the Air Force Research Laboratory.

INTERNSHIP LOCATIONS

- Eglin AFB (Ft Walton Beach, FL)
- Hanscom AFB (Boston, MA)
- Kirtland AFB (Albuquerque, NM)
- Edwards AFB (Los Angeles, CA)
- Wright-Patterson AFB (Dayton, OH)
- Robins AFB (Macon, GA)

AIR FORCE MATERIAL COMMAND AND AIR FORCE RESEARCH LAB DIRECTORATE RESPONSIBILITIES

The responsibilities of the Air Force Material Command and the AFRL include leading the discovery, development and integration of affordable war-fighting technologies for air and space forces by...

- Developing, acquiring and sustaining aeronautical systems
- Testing deployment and sustainment of all air-delivered weapons
- Developing, acquiring and integrating command and control systems
- Providing rapid response and delivery of weapon systems and support to engineering and acquisition communities

ELIGIBILITY REQUIREMENTS

To be eligible for the Summer TRIP students MUST:

- Be enrolled at a university or college that offers Air Force ROTC
- Have completed at least 60 semester or 90 quarter hours of study, prior to the start of the internship
- Be able to graduate within 2 or 3 years after the completion of the internship
- Be a United States citizen prior to the start of the internship
- Not be contracted with any branch of the US Military
- Be registered with Selective Service[†]
- Be at least 17 years of age by the end of the internship
- Pass an AFROTC Medical Physical
- Pass the Air Force Officer Qualifying Test (AFOQT)
- Be under age 31 on 31 December of their graduating year
- Meet Air Force height/weight standards
- Have at least a 2.5 cumulative college GPA
- Be majoring in one of the following Engineering Fields:
 - Electrical Engineering
 - Computer Engineering
 - Environmental Engineering

HOW TO APPLY

Contact your school's AFROTC Detachment, or your school's Engineering Department to apply.

* See AFROTC detachment for details

[†] Males only
